

# LESSON PLAN

**Grade:** KS3, KS4, KS5

**Subject:** Career Planning

**Date:**

**Title:** Careers in Health and Care

**Lesson Delivery method:** IT Room, Microsoft teams

## Lesson Focus and Goals:

- Understand the Variety of Roles offered within the NHS (350+)
- Recognise that health & care is not just made up of Doctors, Nurses and midwives.
- Allow students to understand what career in the NHS may suit their personalities
- Allow students to understand the variety of career routes into the NHS (Apprenticeships, University, Access courses & Time frames)

## Materials Needed:

- The teacher needs to be able to play a video with sound
- Microsoft PowerPoint
- Students will need access to a computer & Internet

## Learning Objectives:

- To recognise Health & care has a wide range of careers available
- To understand that there different educational routes into health and care

## Structure / Activity:

- Lesson to start with Q&A with students for them to tell you what roles they think are in the NHS and why - Every student must answer for this to be effective. They can answer verbally or if you are delivering via Microsoft teams they can use the chat function (verbal is recommended). Highlight the why here!
- Using the presentation provided. Explain the facts surrounding NHS Careers and job roles on the slide - Engage the students in this element also by asking if they are shocked by what the facts are or how does it make them think?
- Watch the 20-minute feature provided.
- Ask the student to go onto the Health Careers website and complete the career quiz & note the top 3 roles they are given.
- Ask students if they would now consider careers in health and care if they have not prior and why (they can do this verbally or using the Chat function on Microsoft teams)
- Ask students to complete the feedback form via the Microsoft forms link provided in the Powerpoint.
